Other services

The company operates on the market since 1988. We provide services in sheet metal forming. We make projects of metal components. Our services are dedicated to companies and also to individual clients. Currently, we cooperate with companies from the automotive, construction, aviation, advertising, agricultural and electronic industries.

Our offer:

- sheet metal shearing using the guillotine,
- automated sheet metal bending using the CNC bending machine,
- punching and stamping using CNC punching machines,
- tubes bending using CNC bender,
- CNC milling and turning,
- welding and spot-welding.

Our machine park:

- CNC hydraulic press brakes,
- TRUMPF TRUMATIC punching machines,
- hydraulic press,
- guillotine,
- welding machines,
- band saw,
- CNC tube bender.
