Other services

ZMP SARD specializes in the precision machining of components with intricate detail to the highest quality.

We work alongside a wide range of industries including: renewable energy, electronics, armaments, aerospace, automotive and white goods to supply individual specifications.

Our well-equipped factory with 30 numerically controlled machines, qualified personnel and a modern test laboratory provide the highest standard of product.

We can manufacture batch and mass production volume with short lead times and at very competitive prices.

ZMP SARD is a company with 30 years experience in its field.
