Plasmet sp. z o.o. is the largest Polish manufacturer of tools for sheet metal processing. Range of products includes tools for press brakes, standard ones and made to order, folding machine tools and shear knives. Apart from new tools of length up to 4100mm we offer regrinding and alteration of used ones.

Tools for presses with Amada<sup>®</sup> Trumpf<sup>®</sup>, LVD<sup>®</sup> and Wila<sup>®</sup> holding systems are available from stock and can be shipped within 24 hours of order. Our tools are laser hardened, we also offer laser hardening services to other companies.
