welding
cutting

SIATEX is a dynamically developing company with many years of experience in the production and sale of various types of fences. Our vision and mission is to provide the highest quality products, adapted to market trends, always of high quality and at attractive prices.

We offer spans, gates, wickets, fencing panels, forest nets, braided and welded nets, and accessories for complete fencing assembly. We also provide services in the areas of laser cutting of sheets and profiles, sheet metal bending, robotic welding, and powder coating. Thanks to the commitment and professional staff, we are a company that is well perceived on the market, with a constantly growing number of satisfied customers. The high level of knowledge that we have allows us to quickly adapt to the requirements of our clients, both private and corporate.

We always provide professional advice, assistance and an individual approach to the implementation of the requirements and expectations of each client.
