We are the market leader in the manufacture of terrace roofing solutions in Poland and we're among the leading manufacturers in Europe.

With over 20 years of market experience, we can safely say that our products combine cutting-edge technology and state-of-the art design – where technical sophistication and functionality meet elegant design that focuses on every detail.

We currently have 10 models in our portfolio. Each product is personalised and made to order. We go beyond simple construction design and pride ourselves on creating comfortable and almost year-round solutions for individual clients, property developers, and the HoReCa industry.

Our terraces may act as a meeting place for you and your loved ones, a chill out or entertainment zone, an outdoor gym, a year-round restaurant patio or an exhibition structure.
